Easy to Clean Air Filter
 Front Access

FEATURES & BENEFITS

■ Equipped with easy-to-clean Air Filter

The accumulation of dust in the condenser causes failures and/or breakdowns in refrigeration. Refrigeration operates normally until they accumulate a certain amount of dust. When they reach over their limit, performance will drop rapidly, resulting in damages and possible disposal of stored goods. This is why all refrigeration manufacturers require the condenser to be cleaned at least once a month for warranty to remain valid. Fortunately for Turbo Air, this process is simplified due to the frontal access air filter device. Users only need to pull out the filter and vacuum lightly to remove the dust. Simply place it back into position when complete.

■ Hydrocarbon refrigerants (R-290 / R-600a)

With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet the new standards of the EPA and DOE in 2017. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

■ Forced air cooling system

Fast cooling and balanced temperature throughout the cabinet.

■ Stainless steel countertop and interior

The exterior of the cabinet is constructed with heavy gauge reinforced stainless steel countertop and wear-resistant black vinyl coated galvanized steel. The interior is stainless steel except galvanized steel top. Turbo Air Back Bar model guarantees the utmost in cleanliness and long product life. It also adds a touch of style to the most refined setting.

■ Ergonomically designed doors

Customers' fatigue fades away with easy grip handles and doors that open effortlessly. These features along with self-closing doors make this the ultimate choice in customer convenience.

■ LED lighting interior

■ Double pane glass doors with Low-E glass (SG Models)

■ High-density polyurethane insulation

The entire cabinet structure is foamed-in-place using high density, CFC free polyurethane insulation.

■ Adjustable, heavy duty, PE (polyethylene) coated wire shelves

■ Side mount compressor unit

With compressors positioned on the side of the unit, our refrigerators can now be serviced without being moved. Our innovative, front breathing feature also allows this model to be highly efficient in narrow spaces.

■ Refrigerator holds 33°F ~ 38°F for the best in beverage preservation

*Depth does not include 1" for door handle (SG Models).

Depth does not include 2" for rear spacers.

† Height does not include 5" for caster height.

■ WARRANTY : 3 Year Parts and Labor Warranty Additional 2 Year Warranty on Compressor

- Anti-corrosion coated evaporator
- Self-contained system
- Door locks standard
- 4" dia. swivel casters standard
- 2" dia. casters available (optional)
- 6" height adjustable legs available (optional)

■ OPTIONAL ACCESSORIES :

- ☐ 2" caster for underbar series, 1/2" diameter: P0165B0100 (non-brake), P0165B0110 (w/ brake)
- ☐ 5" caster, 1/2" diameter & 13 TPI: M726500100 (non-brake), M726500200 (w/ brake)
- ☐ 6" adjustable stainless steel leg: P0121P0100
- ☐ Additional PE coated wire shelf: P0178S0410 (Left/Right)
